

WHY YOU CHOOSE ELITE

## For your evaporator replacement

- The A/C evaporator on all **2019–2023 GLE / GLS** vehicles has a known leak issue, causing the air to blow hot frequently.
- It's common to just refill the system once or twice a year, but this leads to failure of the **compressor** and raises the repair cost.
- We recommend refilling **no more than 2 times** before replacing the evaporator, to prevent damage to other A/C components.
